

Kudos to our Corona Warriors

As Covid -19 lashes the world, frontline workers and essential workers risked their own lives to save others. In this strange year, amid the fears of infections, they continued to work. These essential workers are, without a doubt, are those who most deserve our celebration and gratitude. Their scale of challenge is extreme through the country as India was the second worst hit nation in the world.

To recognize and glorify the efforts and selfless acts of service by the workers of South Delhi Municipal Corporation (SDMC) who went beyond their line of duty during the peak of corona virus pandemic, a felicitation event was conducted on 18th August`2021 by Star Wellness and Care Foundation. 150 workers were honoured with a certificate and gift as a gesture of appreciation. They are the real Corona Yoddha – 2021. Dr. Sameer Bhati, founder presented the certificates to them.
